**Birth:** 19/11/91

I'm a Software technician, code enthusiast. Experienced with IT and technology consultant since 2012. Self taught, learning with communities online and so open to get new experiences, i'm willing to become a fullstack developer.

---

## WORK EXPERIENCE

Jan/2020 - Current

### IT Manager / JCR Maersk Ship Brokers and Agents

Responsibilities:

- Currently work as IT Manager full time, my main tasks are technical and web support, tracking, data management, customer support, computer networks. Also graphical design, webpage development, vessels schedule.

Nov/2021 - Dec/2021

### Front End / Prrrgrammer.org (Part Time)

Responsibilities:

- Worked as a part time trainee, I joined a project related to medical appointments, equipment rental. Developing mobile with Flutter Framework. I mainly used Dart, bash, Github/Gitlab as control version, Trello as design.

Aug/2021 - Oct/2021

### FrontEnd Trainee / Supra Sistemas

Responsibilities:

- Worked as a part time trainee, I replicated on Blazor Framework a dashboard, login screen, forms and sidebar from original design based in Microsoft Excel. I used C#, Html, CSS and bootstrap, Microsoft Onedrive as control version.

---
